

## **New Landscaping Water Rate Adjustment**

The Pinery Water and Wastewater District provides for a reduced water rate for a single billing period to allow new landscaping to be established. Getting your landscape well established early will allow you to better conserve water later. This adjustment applies only to usage above 120,000 gallons in a billing period. The rate for usage above 120,000 gallons will be adjusted to the next lowest rate for the eligible billing period.

This program is only available for new homes (less than 2 years from Certificate of Occupancy), and it is only available for new landscaping. To apply for this program, please complete the attached form and submit it to our office before the end of the eligible billing period.

Please contact our Customer Service staff at 303-841-2797 ext 0 if you have any questions. Mail your application to our District office at P. O. Box 1660, Parker, CO 80134.
